	Supersedes Revision: 12/23/2019		
	4. First Aid Measures		
Emergency and First Aid Procedures:	Victims of severe exposure to chemicals must be taken to health providing centers for medical attention. If necessary, also rescuers must be attended. Always bring with victim a copy of label and SDS of product to health professional.		
In Case of Inhalation:	Remove victim from exposure to fresh air. Supplemental oxygen may be needed if patient has difficulty breathing. Assure mucous does not obstruct airway. Seek medical attention.		
In Case of Skin Contact:	Take off contaminated clothing. Rinse skin immediately with plenty of water for 15 to 20 minutes. Call a poison control center or doctor for treatment advice.		
In Case of Eye Contact:	Hold eyes open and rinse slowly and gently with water for 15 to 20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eyes. Call a poison control center or doctor for treatment advice.		
In Case of Ingestion:	Immediately call a poison control center or physician for treatment advice. Drink at least two glasses of water. Induce vomiting by sticking finger down throat.		
Note to Physician:	Treat symptomatically and supportively.		
	5. Fire Fighting Measures		
Flash Pt:	N.E.		
Explosive Limits:	LEL: N.A. UEL: N.A.		
Autoignition Pt:	N.E.		
Suitable Extinguishing Media	a:Use dry chemicals, carbon dioxide, or chemical foam. Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.		
Unsuitable Extinguishing Media:	Do not use a solid water stream as it may scatter and spread fire.		
Fire Fighting Instructions:	As in any fire, wear a self-contained breathing apparatus in pressure-demand, MSHA/NIOSH (approved or equivalent), and full protective gear.		
Flammable Properties and Hazards:	Material may pose fire hazard because it is dispersed (or spread) by water. Risk of ignition. Rags and other materials containing this product may heat and spontaneously ignite, if exposed to air. Store wiping rags and similar materials in metal cans with tightly fitting lids. Cool closed containers exposed to fire with water spray.		
Hazardous Combustion Products:	Thermal decomposition can lead to release of irritating gas and vapors. Acrolein, Carbon monoxide (CO), Carbon dioxide (CO2), Smoke, Fumes.		
	6. Accidental Release Measures		
Protective Precautions, Protective Equipment and Emergency Procedures:	In case of a large spill, protect people by clearing and isolating the affected area. Such releases should be responded to by trained personnel using pre-planned procedures. In the event of an incidental release, minimum Personal Protective Equipment must be worn: latex or rubber gloves and rubber boots, goggles or full face-shield and coveralls or long sleeved shirt and pants.		
Environmental Precautions:	Do not allow to enter drains or waterways.		
Steps To Be Taken In Case Material Is Released Or Spilled:	It is necessary to contain the spill into the smallest area possible by diking, scooping, etc., and place recovered liquid into an appropriate container. If liquid is absorbed onto a dry carrier such as soil or absorbant material, then this material should be put in covered labeled containers and disposed of as dry waste in accordance with Federal, State, and Local waste disposal regulations.		

	7. Handling and Storage
Precautions To Be Taken in Handling:	Avoid breathing vapor or spray mist. Avoid contact with eyes, skin, or clothing. Users should wash hands before eating, drinking, chewing gum, using tobacco, or using the toilet. Do not apply this product in a way that will contact workers or other persons, either directly or through drift. Only protected handlers may be in the area during application. It is a violation of Federal law to use this product in a manner inconsistent with its labeling. For any requirements specific to your State or Tribe, consult the agency responsibly for pesticide regulation.
Precautions To Be Taken in Storing:	Inspect all incoming containers before storage to ensure all are properly labeled and not damaged. Keep containers tightly closed when not in use. Keep away from reach of children and pets. Whenever possible, place chemicals on secondary containers or diked area. Store in a cool place out of direct sunlight. Do not contaminate water, food or feed by storage or disposal. Empty containers may contain residual liquid or vapors and therefore should be handled the same as full containers.
Other Precautions:	Oil soaked materials may spontaneously combust. Use this product only in accordance with its labeling and with the Worker Protection Standard, 40 CFR part 170. Do not allow worker entry into treated areas during the restricted entry interval (REI) of 4 hours.

CAS #	Partial Chemical	Name	OSHA TWA	ACGIH TWA	Other Limits
8001-22-7	Soybean oil		No data.	TLV: 10 ppm	No data.
NA	Emulsifiers		No data.	No data.	No data.
Recommended Exposure Limits:		No occupational exposure limits have been established for this mixture.			
Respiratory Equipment (Specify Type):		A respiratory protection program that meets OSHA's 29 CFR 1910.134 and ANSI Z88.2 requirements or European Standard EN 149 must be followed whenever workplace conditions warrant respirator use.			
Eye Protection:		Wear appropriate protective eyeglasses or chemical safety goggles as described by OSHA's eye and face protection regulations in 29 CFR 1910.133 or European Standard EN166.			
Protective Gloves:		Handle with gloves. Gloves must be inspected prior to use. Use proper glove removal technique (without touching glove's outer surface) to avoid skin contact with this product. Dispose of contaminated gloves after use in accordance with applicable laws and good laboratory practices. Wash and dry hands.			
		Waterproof gloves	required for this product.		
			on is advisory only and mus amiliar with the specific situa	,	
Other Protective Clothing:		Wear long sleeve shirt and long pants, waterproof gloves and shoes plus socks.			
Engineering (Ventilation e			is usually adequate. Local o g conditions. An eye wash f readily available.		
Work/Hygien Practices:	ic/Maintenance	with skin, eyes and	ce with good industrial hygi clothing. Users should was o, or using the toilet. Remov ing.	h hands before eating, dr	inking, chewing

# 8. Exposure Controls/Personal Protection

Revision: 08/05/2021 Supersedes Revision: 12/23/2019

Environmental Exposure Controls:	Do not apply directly to water, to areas where surface water is present, or to intertidal areas below the mean high-water mark. Do not contaminate water by cleaning of equipment or disposal of equipment wash waters. Exposed treated seed may be hazardous to birds and other wildlife. Treat only those seeds needed for immediate use and planting. Do not store excess treated seed beyond planting time.
	9. Physical and Chemical Properties
Physical States:	[]Gas [X]Liquid []Solid
Appearance and Odor:	Clear, yellow to amber in color.
	Pleasant, aromatic odor.
pH:	5.5 - 7.5
Melting Point:	N.E.
Boiling Point:	N.E.
Flash Pt:	N.E.
Evaporation Rate:	No data.
Flammability (solid, gas):	No data available.
Explosive Limits:	LEL: N.A. UEL: N.A.
Vapor Pressure (vs. Air or mm Hg):	No data.
Vapor Density (vs. Air = 1):	No data.
Specific Gravity (Water = 1):	0.90 - 0.94
Density:	~ 7.6 LB/GA
Solubility in Water:	No data.
Saturated Vapor Concentration:	N.E.
Octanol/Water Partition Coefficient:	N.E.
Percent Volatile:	N.A.
Autoignition Pt:	N.E.
Decomposition Temperature	: N.E.
Viscosity:	N.E.
	10. Stability and Reactivity
Reactivity:	N.A.
Stability:	Unstable [ ] Stable [ X ]
Conditions To Avoid - Instability:	Stable under normal condition, but avoid extreme heat and contact with incompatible materials.
Incompatibility - Materials To Avoid:	Strong oxidizing agents.
Hazardous Decomposition of	<b>r</b> Thermal decomposition can lead to release of irritating gas and vapors. Acrolein, Carbor
Byproducts:	monoxide (CO), Carbon dioxide (CO2), Smoke, Fumes.
Possibility of Hazardous Reactions:	Will occur [ ] Will not occur [ X ]
Conditions To Avoid - Hazardous Reactions:	None known.

Effects:	Food for Birds: Not toxic	
	Effects on Honey bees: Non-Toxic Effects on Aquatic Organisms: Non-Toxic.	
Carcinogenicity/Other Information:	The carcinogenic properties of this product have not been thoroughly investigated. No component is listed as a carcinogenic by IARC, NTP, OSHA, and ACGIH.	
Carcinogenicity:	NTP? No IARC Monographs? No OSHA Regulated? No	
	12. Ecological Information	
General Ecological Information:	The available data on this material does not indicate any undue hazard to the environment under anticipated use and storage. All work practices must be aimed at preventing environmental contamination. Any waste due to spillage or leakage should be contained and disposed of accordingly, see above under Section 6 "Accidental Release Measures." To aid our customers in complying with regulatory requirements, SARA Title III hazard	
	categories for this product are indicated in Section 15. If the word "YES" is marked next to any category, this product may be reportable by you under the requirements of 40 CFR Part 370. Please consult those regulations for details.	
	Soybean oil is a biochemical and generally considered safe. It is a regular component of the human diet and residue determination and tolerance levels are not needed. CAS# 8001-22-7: LC50, Fathead Minnow (Pimephales promelas), > 1000. MG/L. Result: Behavioral Effects.	
Results of PBT and vPvB assessment:	No data available.	
Persistence and Degradability:	No data available.	
Mobility in Soil:	Soybean oil is rapidly decomposed by soil bacteria their energy source. Soybean oil is not water-soluble and little movement in the soil would be expected.

	13. Disposal Considerations
Waste Disposal Method:	<ul> <li>PRODUCT: This product is not an RCRA hazardous waste in its original form; users may re-evaluate its classification due to any mixtures, usage or contamination it may incur during their handling. Waste resulting from the use of this product may be disposed of or site or at an approved waste disposal facility. Waste disposal must be done following all Federal, State and Local regulations. This product, if unaltered by use, may be disposed of by treatment at a permitted facility or as advised by your local waste regulatory authority. Chemical waste generators must determine whether a discarded chemical is classified as a hazardous waste. Avoid contaminating water by disposal of equipment wash waters or other product wastes.</li> <li>CONTAINER: Non-refillable container; do not reuse or refill product container. Clean container promptly after using. Offer for recycling, if available, or puncture and dispose o in a sanitary landfill.</li> </ul>
